Rarity	Tier	Description
Common	D / C (low)	The easiest pets to get. Basic abilities, often small bonuses. Good for starting out. You'll likely get a few by hatching common eggs.
Uncommon	C / B	A step above common. Less frequent, better bonuses. These pets begin to feel useful for boosting your garden.
Rare	B / A	Strong mid-range pets. More exclusive in eggs. These often provide decent, noticeable perks.
Legendary	A / S- (upper mid)	Much harder to get. High utility or niche powerful effects. They can change how you play or speed things up significantly.
Mythical	S	Very rare. Top-tier abilities and effects. Aiming for these is a big goal – they're special.
Divine	S+ / "Top Tier"	The rarest "normal" pets. Elite abilities, high impact. If you have a divine pet, it's likely one of your best.
Prismatic	Above Divine / Ultra	Extremely rare / special event types. These are like "ultimate" pets—hard to get and often event-exclusive.

Pet		Rarity/Tier	Type/Trait
